I will get answers to your questions as quickly as possible. We'll have to work on some of this in london or manchester. Please send me pics of possible couch options! Thanks

I think I have some extra lavender body wash. As far as lavender candles and hand wash just buy natural homeopathic type stuff. The facewash should be neutrogena facemask/wash, It's 2 in 1.

Sounds good! I will head out with runner tomorrow to buy as much as we can here, and the rest in Manchester where there is a better selection.

A few questions:

- Mannequin, are we looking for a white smooth bodied one? Headless? Like her logo?
- Seafoam luffa, is that the type or the color?
- The last leg's fan art was sent back to atom factory in a big box, to make room in the cases for new purchases. Should we have it sent back here? We will likely have some more rolling in as shows pick up. Poster in today's room will be framed, with your permission.
- In regard to iPod player, just wanted to clarify what we are looking for? Her black stereo next to makeup table is iPod compatible (as is entertainment center which may reappear in Manchester), and I believe we have an iPod that was purchased for her. There is no music on it yet. We can make some purchases from iTunes and load it up with your playlist suggestions?

Thanks!

Allison
